Situation in the South China Sea

150. We discussed the situation in the South China Sea, during which concerns were expressed by some Ministers on the land reclamations, activities, serious incidents in the area, including actions that put the safety of all persons at risk, damage to the marine environment, which have eroded trust and confidence, increased tensions, and may undermine peace, security, and stability in the region. We reaffirmed the need to enhance mutual trust and confidence, exercise self-restraint in the conduct of activities that would complicate or escalate disputes and affect peace and stability and avoid actions that may further complicate the situation. We further reaffirmed the need to pursue peaceful resolution of disputes, in accordance with the universally recognised principles of international law, including the 1982 UNCLOS. We emphasised the importance of non-militarisation and self-restraint in the conduct of all activities by claimants and all other states, including those mentioned in the 2002 Declaration on the Conduct of Parties in the South China Sea (DOC) that could further complicate the situation and escalate tensions in the South China Sea.

We expressed grave concern over the recent surge in the Democratic People's Republic of Korea's (DPRK) intercontinental ballistic missile testing and ballistic missile launches and the increased tension in the Korean Peninsula, which are a worrisome development that threatens peace and stability in the region. We called on the DPRK to comply fully with all relevant UNSC Resolutions and called for peaceful dialogue among the concerned parties, and continue working towards the realisation of lasting peace, and stability in a denuclearised Korean Peninsula. We called for the full implementation of all relevant UNSC Resolutions and noted international efforts to bring about the complete, verifiable, and irreversible denuclearisation of the Korean Peninsula in a peaceful manner. 157. We expressed grave concern over the dire humanitarian situation in Gaza, which has been exacerbated following the 7 October 2023 attacks and the resumption of hostilities on 18 March 2025. We condemned all attacks against civilians and civilian infrastructure, which have resulted in the alarming number of casualties, particularly among women and children, the continued restricted access to humanitarian aid, relief supplies and other basic needs, leading to the further deterioration of the humanitarian crisis in Gaza. We urged all relevant parties to accept the ceasefire proposal as outlined in paragraph 2 of UNSC Resolution 2735. We called for an immediate and permanent ceasefire and the immediate and unconditional release of all hostages, especially women, children, the sick and the elderly. We acknowledged the Advisory Opinion of the ICJ on 19 July 2024, which is of the opinion, among others, that the United Nations, and especially the General Assembly, which requested this opinion, and the Security Council, should consider the precise modalities and further action required to bring to an end as rapidly as possible the unlawful presence of the State of Israel in the Occupied Palestinian Territory.
